

Mrs Cristina Aciubotaritei

BI Consultant at Deutsche Bank

aciubotariteicristina@yahoo.com

Experience

BI Consultant at Deutsche Bank

July 2015 - Present (1 year 9 months)

Technology Consultant - Business Intelligence at SAP

June 2014 - July 2015 (1 year 2 months)

BI Consultant at AMSBG

February 2013 - June 2014 (1 year 5 months)

Business Intelligence Developer at ISDC

June 2012 - February 2013 (9 months)

My activities as a BI developer at ISDC are:

- Deliver BI products which meet the defined project's requirements. (create BI architecture, data base design and modelling, develop reports and dashboards)
- Execute project tasks at the request of the team leader or project manager.
- Create reports about the progress of all assigned tasks (progress, risks, quality and other information necessary for the correct assessment of the team's status and current work situation).
- Permanently seek continuous improvement in own activity (project management, time management, and other technical applications)

Pre-Sales Consultant at Oracle

November 2009 - June 2012 (2 years 8 months)

Between November 2009 and June 2012 I was part of North America Applications Shared Services Team and my activities were:

- Definition of strategies and roadmaps to implement Business Intelligence solutions (ex. Healthcare Overview)
- User requirements gathering, design, modeling and implementation of Business Intelligence solutions (Customizing BI dashboards and reports according to demo's needs)
- Design and implementation of technical and operational architectures

- ETL, data integration, data quality and data conversion design / implementation
- Migration of BI and EPM projects
- Develop and maintain Apex Applications
- Create web-sites presentations using Solution Factory and develop video presentations using UPK, BlueBerry

Developer at 4E Software

January 2008 - October 2009 (1 year 10 months)

At 4E Software, I had the opportunity to develop different software s/projects using different programming languages. This gave me the capability to have a larger view about different environments, platforms, operating systems. I also created web sites, graphic designs, logos, banners, interfaces, etc.

My activities as a software developer were :

- Assist in design activities to develop sustainable software designs that can be communicated to other team members.
- Undertake software coding of allocated tasks according to Company plans, processes and procedures
- Assist in the design of comprehensive tests of nominated software developments
- Test assigned modules of software according to Company plans, processes and procedures
- Provide documentation to an appropriate level for the intended audience, taking into account that the audience may vary from internal staff members to senior customer figures
- Ensure that all work adheres to company standards
- Provide second and third line product support
- Build relationships with all other areas of the business to assist the communication of technical information
- Maintain an accurate record of progress using company tracking tools
- Provide periodic, accurate progress reports to Project Managers and Team Leaders

October 2016

Mrs Cristina Aciubotaritei

BI Consultant at Deutsche Bank

aciubotariteicristina@yahoo.com

4 people have recommended Mrs Cristina

"I worked with Cristina for 2 years at Oracle. She's an extremely hard worker and very knowledgeable. She is driven to master technology and I was always impressed with her project management and problem solving skills. I highly recommend Cristina and hope to have the opportunity to work with her again someday."

— **Gary DeYoung**, managed Mrs Cristina indirectly at Oracle

"Cristina is a great team member; she is an active person with high leadership skills. Full of energy, she shares her energy with the people around her. Motivating and inspiring others, she brought to our team high results. She is not afraid of challenges; she is hard working and goal oriented. Cristina does not stop till she achieve her and her team's goals. She is has great presentation and communication skills."

— **Ruxandra Voiculet**, worked directly with Mrs Cristina at Oracle

"For the time worked in Oracle Pre-Sales, Cristina was a motivated team member, being always amongst the volunteers for new tasks and asking for additional work. The "can do" attitude was reflected also in a number of suggested improvements and in her involvement in volunteer projects like Oracle Women Leadership. She's the type of person you can rely on when a job needs to be done and needs to be done well."

— **Cristian Zamfirache**, managed Mrs Cristina at Oracle

"Cristina - what a cheerful colleague! She is a creative, friendly person with highly developed communication skills. Also she is one of the fewest individuals I met who rapidly bring practical solutions on the table. Her vision and imagination help her being multi-tasking while not loosing focus of the really important aspects. I am confident that Cristina will fully make use of her great potential."

— **Claudiu Constantin**, worked directly with Mrs Cristina at 4E Software
